Summary of reasons for classification:	The computer image file printout <i>d2s1-2881.jpg</i> is classified as: Objectionable.

The publication is objectionable because it promotes and supports the exploitation of children and young persons for sexual purposes.

The printout shows a naked young girl, who appears to be approximately 10-12 years old, in a sexual pose that focuses on her undeveloped breasts, pubis and genitals. The image is exploitative: the only apparent purpose of the publication is to encourage sexual titillation and arousal. The image links youthfulness with sexual desirability and encourages a sexual interest in children and young persons. It also advances the idea that children and young persons are ready for adult forms of sexual activity.

The classification of this publication interferes with the right to freedom of expression, as set out in the New Zealand Bill of Rights Act 1990. However, this is an outcome that is consistent with Parliament's clear intention in s3(2) of the Films, Videos, and Publications Classification Act 1993. The classification is a reasonable limitation on the freedom of expression that reflects the concern of a free and democratic society to limit the availability of publications that promote and support the exploitation of children and young persons for sexual purposes.
